

## DEGAUSSER/ERASER QUOTATION AND BROCHURE

Thank you for contacting Peripherals.

Peripheral Manufacturing Inc. is a 26-year-old company specializing in Fire Suppression Equipment for Computer Rooms, Magnetic Media, Computer Room Air Conditioners, Tape Degaussers, Tape Storage Racks and Cases, CD/Disk/Credit Card Shredders, DLT Tape Labels, and Tape Duplication and Conversion.

<b>PER-2070 Degausser/Eraser System</b>	<b>@</b>	<b>\$1,495.50</b>
---	----------	-------------------

Warranty: 40 months, free retesting each year at no charge, for life  
User pays UPS shipping only.

Shipping: FOB Destination

Thank you once again. If you have any questions please give me a call.

Regards,  
Ron Carboy

### PER-2070 Degausser/Eraser

## **Degausser Declassification Systems PER-2070 Degausser/Eraser System**

Your first defense in floppy diskette and data cartridge control is the Model 2070 Degausser/Eraser.

Completely degausses hard drives up to 40GB, ZIP 100 Mb. & 250 Mb., Travan TR-3 (4/8 Gig) TR-#, TR-1, 4 & 8 mm. DLT, all 3 1/2" and 5 1/4" Floppies', 120 Mb. Super Floppy, Jaz 1 & 2 Gig. Disks, RDAT 4 & 8 mm, all Phillips-type cassettes, CLIK disks, Magnus 1/4" carts, Std. 1/4" data carts, and any type I, II or III media less than 5/8" thick by 5 1/4" wide.

The PER-2070 is a safe, shielded device. Unlike other Degausser with "bare" magnets, the 2070 cannot accidentally ruin other magnetic media that may be near. The 2070 does not require a skilled operator to insure proper declassification of the target data. A simple pass through the 2070 aperture insures complete, effective erasure.

All declassification products are manufactured to the requirements of, and meet or exceed DOD standards for, CD or magnetic data destruction devices.

## Technical Data for Model-2070 Degausser/Eraser:

### **Cabinet:**

Case Material:	Tempered Steel
Color:	Bone
Size:	8 <sup>3</sup> / <sub>4</sub> X 3 <sup>1</sup> / <sub>2</sub> X 9 <sup>1</sup> / <sub>2</sub> "
Weight:	22 lbs.
Media Capacity:	6" wide and Less than 1.187"Thick
Power Req.:	None-Fixed High Energy Magnetic Circuit

### **Magnetic Performance Data:**

Actual gap dim:	1.125"
Peak flux at gap:	12,000 Gauss Transverse
Min. flux at gap:	6,000 Gauss Longitudinal
Avg. flux outside case:	Less than 5 Gauss
Max. flux outside case:	Less than 10 Gauss
Erasure level:	-90 Db. or Better coercivity (Type III Density) below peak write level
