- Provides 60,000 Btu/hr of cool air... maximum spot cooling to just the room that needs it.
- No costly installation necessary ... simply roll it in, plug it in, turn it on.
- Condensation pump included ... pumps water to remote drain for uninterrupted operation.
- 24/7 programmable operating modes

Computer Cooling

Office & Server Room Air Conditioner Units

Providing up to 60,000 Btu/hr of computer cooling capacity (more than twice the cooling power of the Office Pro 24), the Office Pro 60 portable air conditioner is specifically designed for cooling large office spaces and computer rooms that house heat-generating electronics. As an ideal server room air conditioner, it prevents computer networks, communications, and office equipment from shutting down when temperatures rise.

Avoid crippling daily operations by bringing portable A/C to just the area or room that needs it. Protect critical data from being lost with an Office Pro 60. This powerful computer room air conditioner saves you money while protecting your company's investment in equipment, employees and customers. Self-contained and portable, the Office Pro 60 requires no costly installation - simply roll it in, plug it in and turn it on.

** Exhaust duct required in most cases.
