## CoolCube 10

### **Taking Modular Air Conditioning to a New Level of Cool**

With a revolutionary modular design that easily adapts to virtually any application, **MaxPower's CoolCube 10** is the only air conditioning solution in the industry that changes to fit your individual needs. The compact, 10,000 Btu/h module can be rack-mounted, hung from the ceiling, stacked for capacity or redundancy, mounted on a shelf or used as a stand-alone portable unit—simply by adding the respective accessory kit.

In addition to its unique modular design, the **CoolCube's** minimum height, easy mobility, and efficient cooling operation make it ideal for IT environments such as computer and server rooms, equipment closets, rack rooms, telecom closets and other network stations. **CoolCube** is also a perfect solution for health care environments, industrial uses, mobile applications, office buildings and schools, special events and other applications requiring reliable, space-saving cooling alternatives.

Whether used to cool equipment, people or processes, or implemented as a permanent or temporary solution, no other air conditioning solution offers the level of flexibility as the **CoolCube**.

## Cool Design, Cool Benefits

- Same 10,000 Btu/h module can be used in a variety of applications, including rack-mounting, as a portable unit, hanging from a drop ceiling, or stacking units for capacity/redundancy
- Provides cost-effective, efficient and mobile cooling
- Compact unit is 50% smaller than leading competitor, offering easy portability
- Scalable, modular design enables users to add capacity or redundancy simply by stacking units
- The industry's only air conditioning unit that fits into a standard, open 19-inch rack, occupying just 12U of valuable rack space
- Hanging option (above floor, in a drop ceiling or mounting on a shelf) conserves floor space
- Electronic Digital Controller simplifies system control and programming
- Remote control enhances convenience and ease of use

## Specifications:

- **Cooling Capacity** 10,000 Btu/h
- **Voltage Requirement** 115 VAC
- **Recommended Fuse** 15 amps
- **Power Consumption** 1.15 kW
- **Power Cord Length** 10 feet
- **NEMA Plug Configuration** 5-15P
- **Air Flow — Evaporator** (High/M/Lo) 325/310 /29CFM
- **Air Flow — Condenser** 400 CFM
- **Sound Level** 58 dB
- **Condensate Tank Capacity** 2.5 gallons
- **Dimensions (WxDxH)** 17.25 x 24 x 20 inches
- **Net Weight/Shipping Weight** 110/135 lbs.
  
- **Portable Kit (Includes Handle, Nozzle & Wheels)**
- **Ceiling Kit**
- **Rack mount Kit**
- **Stack Kit**
- **Condensate Pump Kit**
